

AEROBIOLOGY SYMPOSIUM

BEYOND POLLEN

REGISTER NOW

5th and 6th November 2026
in Locarno-Monti - MeteoSwiss

About the symposium

The symposium welcomes healthcare professionals, aerobiology researchers, public health experts, and professionals from related disciplines interested in advancing collaboration between bioaerosol research, allergy and health.

The symposium provides a platform for exploring the latest advances in environmental monitoring and clinical research on aeroallergens, aimed at bridging the gap between medical and environmental perspectives and defining synergies.

Confirmed speakers

Assoc. Prof. Dr. med. Marcel Bergmann, FMH Specialist in Clinical Allergology and Immunology and in Paediatrics, EOC Bellinzona, Mendrisio

PD Dr. med. Oliver Fuchs, FMH Specialist in Clinical Allergology and Immunology and in Paediatrics, LUKS Lucerne
